

DELIVERABLE

Grant Agreement number: FP7-SME-2012-314879

Project acronym: AUTOGRASSMILK

Project title: INNOVATIVE AND SUSTAINABLE SYSTEMS
COMBINING AUTOMATIC MILKING AND PRECISION
GRAZING

**Funding Scheme:
associations** Research for the benefit of SME

Deliverable Number: D 5.3

Deliverable Name: Video clip of results

Video clips of results

The dissemination of the results from the project AUTOGRASSMILK includes the production and publication of eight videos. The videos have been published on YouTube or Vimeo and are accessible from www.autograssmilk.eu. There are videos from Ireland, Belgium, France, the Nederland and Denmark in English, French, Dutch and Danish.

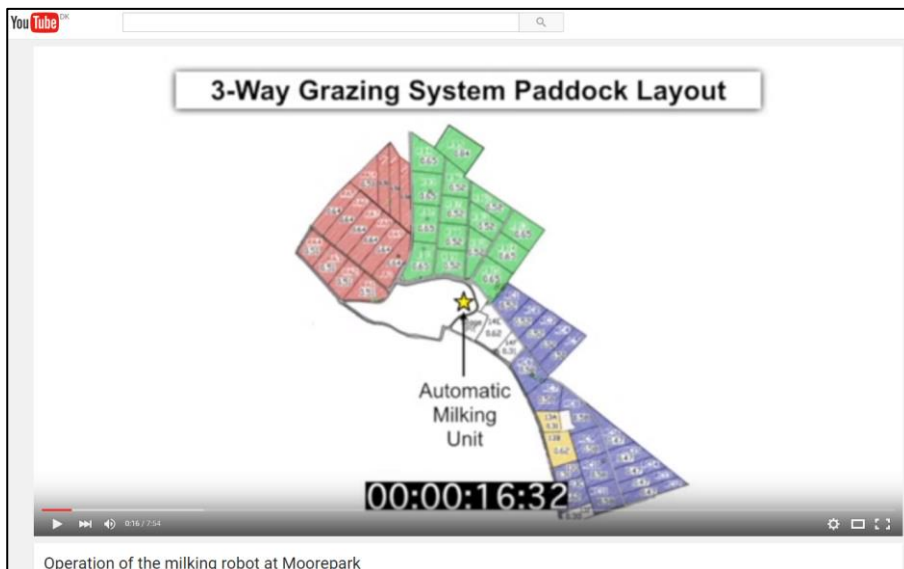

List of videos with results from the project:

Transfert du robot de traite de la ferme expérimentale de l'Université Liège. The video shows how the milking-unit is moved from the winter site to the summer site. The duration of the video is 9.42 minutes. Link to the video

<https://www.youtube.com/watch?v=ScIzOQB93so&feature=youtu.be>.

Operation of the milking robot at Moorepark. The video explains how an AMS system is operated with grazing in an ABC system. The duration of the video is 7.54 minutes. Link to the video https://www.youtube.com/watch?v=kWLhwof_FeU&feature=youtu.be.

Dissemination of information on automatic milking at Moorepark. A video from a dissemination event at Teagasc, Moorepark, Ireland. The video presents some of the questions and answers at a dissemination event at Moorepark. The duration of the video is 6.03 minutes. Link to the video <https://www.youtube.com/watch?v=kCPQEAtQt9c>

Open day presentation on automatic milking at Moorepark. A video from an event at Teagasc, Moorepark, Ireland. In the video the researchers pass on knowledge from the project to the farmers. The duration of the video is 8.31 minutes. Link to the video <https://www.youtube.com/watch?v=hWdQKLY1vI4>

AutoGrassMilk weiden met melkrobot. This video gives information about how to operate an automatic milking system together with cow grazing. The duration of the video is 2.14 minutes. Link to the video https://www.youtube.com/watch?v=zf4VrOF5q_s

Équipements pour la gestion des prairies. The video presents two examples of equipment for grazing management that are tested in AUTOGRASSMILK. The equipment include the Grasshopper and the Life Corder. The duration of the video is 2:52. Link to the video: <https://youtu.be/RDJn3asIEuU>.

Afgræsning og AMS. This video provides information about automatic milking and grazing. In the video it is explained how to combine automatic milking and cow grazing. In the video there is focus on grazing. The duration of the video is 3.44 minutes. Link to the video <https://vimeo.com/140040182>

The Science Squad Series Three – Episode 2. In Ireland, RTÉ Television has shown a 5.43 minute episode with results from AUTOGRASSMILK. The Science Squad are produced by New Decade TV Ltd. Link to the video <https://www.youtube.com/watch?v=A15VdlqEqCE>
